International Journal of Performability Engineering, Vol. 12, No. 1, January 2016**

Author(s)	Title of the Paper	Pages
Krishna B. Misra	Editorial	1
Dianxiang Xu and V.N.A. Naikan	Introducing New Co-Editors-in-Chief	2
Amit Kumar Jain and Bhupesh Kumar Lad	Data Driven Models for Prognostics of High Speed Milling Cutters	3-11
Christopher S. Jackson and Mohammad Modarres	Sensor-based Bayesian Inference and Placement: Review and Examples	13-32
Roopa Sampath, Sukhdeep S. Dhami, and Suresh Srivastava	A Virtual Model of Steam Turbine Power Generation Unit	33-43
Sudhendu Rai and Ranjit Kumar Ettam	Autonomous Cell Based Storage Location Assignment Strategy in Print Production Environments	45-54
Supriya M., Sangeeta K., and G. K. Patra	A Fuzzy based Hierarchical Trust Framework to rate the Cloud Service Providers based on Infrastructure Facilities	55-62
Duygu Yasar, Nurcin Celik, and Joseph Sharit	Evaluation of Advanced Thermal Solid Waste Management Technologies for Sustainability in Florida	63-78
Anish Bahri, V. Sugumaran, R. Jegadeeshwaran, and S. Babu Devasenapati	Misfire Detection in Spark-Ignition Engine using Statistical Learning Theory	79-88
Short Communications		
Xianglong Ni, Jianmin Zhao, Wenyan Song, and Haiping Li	Reliability Modeling for Two-stage Degraded System Based on Cumulative Damage Model	89-94
Maochen Men and Liwei Chen	Node Energy and State Probabilities in Linear Wireless Sensor Networks	95-99
Book Review		44
