International Journal of Performability Engineering, Vol. 13, No. 1, January 2017**

Author(s)	Title of the Paper	Pages
Vallayil N. A. Naikan	Editorial	1
Eric Wong	Introducing New Editors	2
C. N. Jayapragasan and K. Janardhan Reddy	Numerical Investigation of the Inner Flow in Centralized Fluffs Collection using CFD	3-18
Niraj G. Pai Bhale, P.K. Srividhya, V. Mariappan1, Amol N. Patil, and M. Prabhakaran	Process Improvement of Fiber Glass Industry	19-28
Ghita Ettaye, Abdellah El Barkany, and Ahmed El Khalfi	Integrating Production and Maintenance for a Multi-Lines System	29-44
N. Chandra and V. K. Rathaur	Non Informative Priors for the Stress-Strength Reliability in the Generalized Augmented Inverse Gaussian Distribution	45-62
Amit Manocha, Gulshan Taneja, and Sukhvir Singh	Stochastic and Cost-Benefit Analysis of Two Unit Hot Standby Database System	63-72
Ahmad Almagableh, Faris M. AL-Oqla, and Mohammad A. Omari	Predicting the Effect of Nano-Structural Parameters on the Elastic Properties of Carbon Nanotube-Polymeric based Composites	73-86
T. Ch. Anil Kumar, Gurmeet Singh, and V. N. A. Naikan	Broken Rotor Bar Fault Diagnosis in VFD Driven Induction Motors by an Improved Vibration Monitoring Technique	87-94
Yu Zhefu and Huo Linsheng	A Two Step Method for Tower Structure Damage Location	95-106
