International Journal of Performability Engineering, Vol. 17, No. 12, December 2021**

Author(s)	Title of the Paper	Pages
Qiong Guan	Energy Coupling of Contact ESD on Shielded Electronic Equipment	973-980
Kalaivani M and Kannan R	Reliability Assessment Model for Deterioration Systems Subject to Cumulative Damage	981-988
Snehashis Ghoshal, Sumit Banerjee, and Chandan Kumar Chanda	Modelling and Performance Evaluation of MPPT-based Solar PV System with Different Interfaces in MATLAB/Simulink Environment	989-997
Smriti Sehgal, Laxmi Ahuja, and M. Hima Bindu	Image Compression using PSO-ALO Hybrid Metaheuristic Technique	998-1004
Jenson Jose and Jose P Therattil	Machine Learning Assisted Parameter Tuning for a L2CL-LCL Compensation WPT System	1005-1015
Sushitha Susan Joseph and Aju D	LSOA Optimized Curve Fitting-based 3D Reconstruction of Brain Tumor	1016-1026
Anuja Arora and Anu Taneja	Research Issues, Innovation and Associated Approaches for Recommendation on Social Networks	1027-1036
