

**Table of Contents of
International Journal of Performability Engineering, Vol. 20, No. 04, April 2024**

Author(s)	Title of the Paper	Pages
Naveen Monga and Parveen Sehgal	Effective Software Defect Prediction: Evaluating Classifiers and Feature Selection with Firefly Algorithm	195-204
Harshita Batra and Leema Nelson	ESD: E-mail Spam Detection using Cybersecurity-Driven Header Analysis and Machine Learning based Content Analysis	205-213
Prashant Kaushik, Vikas Saxena, and Amarjeet Prajapati	Video Captioning Based on Graph Neural Network Made from Action Knowledge and Object Features	214-223
Bibal Benifa J. V, Joel Mathew Philip, Christy K T, and Anu K P	A Framework for Analyzing the Context of Discussion in Crowd Clusters	224-231
Priya Singh and Rajalakshmi Krishnamurthi	AgriGuard: IoT-Powered Real-Time Object Detection and Alert System for Intelligent Surveillance	232-241
Meroua Sahraoui and Ahmed Bellaouar	A New Modeling Approach to Enhance Reliability, Availability, Maintainability, and Performance of Production System Equipment in a Supply Chain	242-252
Ujjwal Deep, Sushant Kumar, and Kanika Singla	Integrating Deep Learning Architectures for Enhanced Human Action Recognition: An Ensemble Approach	253-262
