International Journal of Performability Engineering, Vol. 22, No. 05, May 2026**

Author(s)	Title of the Paper	Pages
Chaohui Liu, Yi Lu, Yixuan Wang, and Yu Zhang	Reliability Assessment of the Lift Powertrain in a Lift-Plus-Cruise eVTOL: A Solution Method for GSPN	237-244
Wahbi Rajhi and Walid Mechri	Reliability Analysis of Multistate Systems Subject to Proof Testing Using Multiphase Markov Chains	245-252
Ritika Bidlan and Sonal Chawla	Emotion-Driven Music Recommender System: A Novel Deep Learning Approach for Enhanced User Experience	253-262
Ashish Jain and Sudeep Varshney	NRGAN-HFF: Noise-Resilient GAN with Synergistic Feature Fusion for Reliable and Performable Image Retrieval	263-273
Rajinder Kumar and Kamaljit Kaur	Hybrid Beluga Whale-Coati Optimization Framework for Robust Feature Selection in Software Fault Prediction	274-287
Deepak Bansal, Yojna Arora, Hare Ram Singh, Rashmi Sharma, and Rekha Chaturvedi	Strategic Management of Hybrid Retrieval-Augmented Microservices for Long-Horizon Cloud Machine Learning	288-296
