

**Table of Contents of
International Journal of Performability Engineering, Vol. 22, No. 09, September 2026**

Author(s)	Title of the Paper	Pages
Imani Bellamy, Chih-Wei Hsu, and Zizhao Chen	Fool Me Once, Shame on You: A Comparison of Generic and Inoculation-Based Warnings for Phishing Email Identification	495-503
Zohair Tahri and Abdelbasset Barkat	An Efficient Hybrid GA-PSO Job Scheduling Algorithm for Cloud Computing Environment	504-515
Vibha Mani and Shruti Jaiswal	An Adaptive Trust Aware Consensus Framework for Resource Constrained Blockchain Networks: Performance Evaluation and Security Analysis	516-524
Jaskirat Kaur and Navdeep Kaur	Improving Software Effort Estimation through Data Quality Enhancement and Multi-Criteria Feature Optimization	525-538
Sanjay Kumar Sonker, Vibha Kaw Raina, Bharat Bhushan Sagar, and Ramesh C. Bansal	Trust-Aware Adaptive Differentially Private Hierarchical Federated Adversarial Learning Using CNN-GCN-GRU for Secure V2X-Enabled Smart Grid Communications	539-548
Vaibhav Ranjan and Potukuchi Raghu Vamsi	Performance Analysis of Information Theoretic Feature Selection Methods for Ethereum Fraud Detection	549-560
